*Vam felix! linguæ qui nunc facundia pollet
Quam vero infelix est hebes ac stupidus!
Ille prior felix, valet is nam stare paratus
Ad debitas partes hocce hilarique die.
Quo Tu VIR CELSE! in celsa jam sede locaris
Et noster RECTOR pristina Sceptra capis
Infelix vero facundi degener oris!
Et qui non pollet pieriis studiis!
Is non testari sua gaudia debite pollet
Aptus letitiæ nec dare signa sua.
Judico me talem, sanè sic judico recte
Quam rude ingenium sit mihi percipio.
Quapropter quid agam? mihi mox sententia surgit:
Parvam vim tacitus proderè non hodie.
Quantæ ast tunc peccans, possem succumbere culpæ?
Quantum ingrati esset pectoris indicium?
Nam penes Te legum stabit veneranda potestas
Pro qua nos omnes sub ditione trahes,
Consiliisque reges nobis errantibus adstans,
Splendor, Patronus, Tutor & altus eris.
Hinc taceam solus? solus non gaudia cantem?
Cum nullus mittens, hunc celebrare diem
Certatim hinc plaudo, totoq; & pectore grator,
Certatim hoc luce justaque vota feram,
Aspiret Numen, fortuna tuoque labori,
Secundo auspicio totus & annus eat,
Fortunæque beent te semper munera larga,
Æcepius & redeat hæcce serena dies.*
