\aleph Pafer \aleph Pfik Kadmatus vel Mahpachatus	\aleph Jerach \aleph Mahpach	\aleph Pfik Kadmatus \aleph Idem vel \aleph Munach inferior.	\aleph Idem.

REGULÆ.

- I. In medio verſus ponitur \aleph Merca Mahpachatus, ſi nimirum incidat ultra quartam à Silluko vocem media verſus interſectio. Ubi ſimul Rex intermedius minor eſt Athnach; ſi verò id non liceat, tum pro Athnacho ſubſtituitur alternans Archi-Dux \aleph Rbhia Gereſchatus.
- II. In mediâ totius verſus interſectioe ponitur Athnach ſi ea obtingat vel in quartâ à Silluko, vel in quintâ aut ſextâ voce, ſic tamen, ut libere tunc & indifferenter ipſe etiam \aleph Merca Mahpachatus talem mediâ verſus interſectionem occupet.
- III. Creberrimè ſervus Mahpach, interdum Merca, præmittunt ſibi in eadem voce conſervum quaſi Sarkam: hac nimirum conditione, ſi ante Tonum vocis fit litera cum vocali longâ vel longæ vicariâ. Quæ compoſitio horum accentuum etiam contingit, duabus vocibus habentibus copulam Maccaph vel expreſſam vel ſubintellectam. Si per lineolam Maccaph cohærent voces, Sarka nequaquam eſt diſtinctivus, quamvis in ultima litera poſitus, ſed eſt conſervus Mahpachi vel Mercæ.

De VOCE LABORANTE notentur ſequentia:

1. Scheva mobile & Patach furtivum per ſe non faciunt Syllabam, ſed ſunt pars Syllabæ.
2. Cum Schurek particula eſt inſtar (:) mobilis; ſed ante aliud (:) inſtar vocalis parvæ non-ſyllabicæ.
3. Quando (:) Compoſitum ob aliud (:) ſequens mutatur in medio vel in vocalem, vel in (:) quieſcens; tum vocis, in qua vocalis eſt, hîc eadem quantitas, ac ſi (:) eſſet aſſumtum, ut \aleph pro \aleph eſt diſyllabum.
4. Vocalis magna, & ſequens in eadem voce (:) mobile habentur hîc pro binis Syllabis. Ita \aleph habetur pro triſyllabo.
5. Voces per Maccaph copulatæ habentur pro una.
