Uis neget ELISABETHA Ti-  
bi crudelia fata

Præproperam mortem, Lanifi-  
casq; truces?

Dum funesta dies nigro dam-  
nanda lapillo

Abrupit vitæ florida fila tuæ:

Quâ puri quondam radios imitantia Phœbi  
Deseruit solitus lumina fractanitor.

Quâ benè compositos artus faciemq; serenam  
Flavescentesq; comas invida texit humus.

Quâ vigor ingenui defecit corporis & quâ  
Tabuit egregiis artibus apta manus.

Quâ vox illa prius morientibus æmula cygnis  
Cœpit in æternam muta silere diem.

Quaq; pios actus mors interrupit & altæ  
Infregit mentis nobile propositum.

Scilicet his spoliis mors importuna triumphat  
Et præmaturis dat bona tanta rogis

Ipsa tamen felix (quoties perpendere verum  
est)

Tam cito de vitæ rapta Puella malis.

Illa

Illā dies, nīveam quæ exemit corpore mētem,  
Illā redonavit sedibus hanc patriis.  
Nam pudor & nulli pia mens obnoxia culpæ  
Rectum iter ad superos, unde recessit, ha-  
bet :

Atq; ibi compedibus non irretita malorum  
Liberā cœlesti pascitur Ambrosiâ.  
In cœlis lætos agit ELISABETHA triumphos  
Complexu in medio contuituq; DEI,  
I nunc & culpa crudelia fata Puellæ  
Præproperam mortem Lanificasq; truces!
